CORE SKILLS TO DEVELOP – STEP 1 (0–1 YEAR)

Become a Strong Implementation Specialist

From Your Current Stage → To Building a Solid Foundation

WHERE I AM NOW
(Current Stage)

Implementation Officer (Healthcare IT)

Experience: 1.5+ Years

WHAT I ALREADY HAVE

- Healthcare IT Experience
- Implementation & Support
- UAT & Workflow Validation
- Stakeholder Coordination
- Documentation & Reporting

CURRENT SKILL LEVEL

Advanced Excel	★★☆☆☆
SQL	★★☆☆☆
Product Workflows	★★★☆☆
Agile & Scrum	★½☆☆☆
Business Analysis	★★☆☆☆
Communication	★★★☆☆

Strong domain knowledge in healthcare is your big advantage!

CORE SKILLS TO DEVELOP (STEP 1)

1 ADVANCED EXCEL

Analyze, organize and visualize data for better decisions.

Current → Target ★★☆☆☆ → ★★★★☆

Key Focus Areas
- Excel Tables
- Pivot Tables & Charts
- VLOOKUP / XLOOKUP
- IF, SUMIFS, COUNTIFS
- Data Validation
- Dashboard Creation
- Reports & Automation

2 SQL (INTERMEDIATE)

Query and analyze databases to derive meaningful insights.

Current → Target ★☆☆☆☆ → ★★★★☆

Key Focus Areas
- SELECT, WHERE, ORDER BY
- JOINS (INNER, LEFT, RIGHT)
- GROUP BY, HAVING
- Aggregate Functions
- Subqueries & CASE
- Views & Stored Procedures
- Real-world Query Practice

3 UNDERSTANDING PRODUCT WORKFLOWS

Understand end-to-end workflows of core hospital modules.

Current → Target ★★☆☆☆ → ★★★★★

Key Focus Areas
- ADT (Reg–Discharge)
- Billing Workflow
- Insurance Workflow
- Lab & Pharmacy
- Process Mapping
- Workflow Documentation
- System Integrations

4 AGILE & SCRUM BASICS

Work effectively in Agile teams and understand delivery.

Current → Target ★☆☆☆☆ → ★★½☆☆

Key Focus Areas
- Agile vs Waterfall
- Scrum Framework
- Roles & Ceremonies
- Sprint Planning
- User Stories
- Acceptance Criteria
- Definition of Done

5 BUSINESS ANALYSIS FUNDAMENTALS

Gather requirements and translate business needs into solutions.

Current → Target ★★☆☆☆ → ★★★★☆

Key Focus Areas
- Requirement Gathering
- Use Cases
- Business Rules
- Process Mapping
- BRD / FRD Basics
- Gap Analysis
- RTM & UAT Basics

6 COMMUNICATION & PRESENTATION SKILLS

Communicate, present and influence stakeholders better.

Current → Target ★★★☆☆ → ★★★★☆

Key Focus Areas
- Verbal Communication
- Presentation Skills
- Email Writing
- Requirements Workshops
- Client Meetings
- User Training & Demos
- Storytelling

HOW THESE SKILLS WORK TOGETHER

Analyze Data (Excel) → Extract Insights (SQL) → Understand Processes (Workflows) → Deliver Solutions (Agile) → Solve Business Problems (Business Analysis) → Communicate & Impact (Communication) → Strong Implementation Specialist

WHERE I WILL BE AFTER STEP 1 (0–1 YEAR)

STRONG IMPLEMENTATION SPECIALIST

- Confident in Data & Reporting
- Can Analyze & Present Insights
- Understands End-to-End Workflows
- Works Effectively in Agile Teams
- Can Gather & Document Requirements
- Communicates & Presents with Confidence

READY FOR NEXT STEP
(STEP 2: Move into Product Consulting Roles)

BENEFITS YOU WILL GAIN

- Stronger Technical Foundation
- Better Problem Solving
- More Value to Your Organization
- Higher Career Opportunities
- Better Salary Growth

FOUNDATION ENABLERS (DO THESE CONTINUOUSLY)

Daily Learning (2 Hrs/Day)
- 30m Excel
- 30m SQL
- 30m Concepts
- 30m Documentation

Weekly Practice
- Work on Real Data
- Build Small Projects
- Create Documentation
- Present & Get Feedback

Build Portfolio
- Dashboards
- SQL Reports
- Workflow Documents
- BRD / UAT / Test Cases

Certifications
- Excel (Microsoft)
- SQL (HackerRank)
- Scrum (SFC)
- BA Fundamentals

Apply in Real Work
- Use in Daily Tasks
- Automate Reports
- Improve Processes
- Add Business Value

MINDSET TO SUCCEED

- Consistency over Intensity
- Learn → Apply → Improve
- Focus on Understanding, not Memorizing
- Build & Share Your Work

FOCUS ON BUILDING A STRONG FOUNDATION TODAY, SO YOU CAN BUILD A REMARKABLE CAREER TOMORROW.
